

Client Success Story

Seamless Integration between NetSuite and HMRC for monthly submissions and contractor verification

“

The ProScope CIS solution offers full integration with our existing NetSuite ERP solution. Clear and comprehensive CIS compliance will allow us to effectively manage all our CIS obligations with ease.”

Director

Business Challenges

- Manual CIS processing time consuming.
- Complex projects with multiple subcontractors needing to be verified.
- Capturing, monitoring and maintaining an audit trail for full CIS compliance for every project is increasing difficult to manage.

Solution

- Seamless Integration between NetSuite ERP and HMRC.
- Calculations for CIS payments and deductions tracked processed and stored in one system.
- User friendly interface allowing real time monitoring and measurement of status of CIS within projects.
- Automation of processes to allow a more efficient method for verification of subcontractors.

Benefits

- The only native CIS application available for NetSuite that is HMRC recognised.
- Clear and comprehensive CIS compliance.
- All data held within NetSuite and automatically transferred to HMRC.
- CIS Deductions and payments easily collated for monthly reports.
- Reducing the time and increasing the accuracy for the CIS process.
